

I strongly disagree with the plan to allow more broadcast outlets to be controlled by an increasingly smaller group of powerful corporations. I heard Mr. Powell speak on the radio, and I found his arguments completely unconvincing. Free TV as we know it will NOT be preserved by this FCC rule change. Allowing local stations to be owned by media conglomerates will further narrow the range of opinions and programming heard by Americans. Please delay the vote to allow for further public comment. Publish the language of the proposed rule changes. Allow time for an appropriate Congressional review.
